DAMAST
DOCCETTERIA

“Ho sbagliato tante volte ormai,
Che lo so già...
Ma una volta in più cosa può cambiare
Nella mia vita”

L’appuntamento - 1970

Omaggio a Ornella Vanoni

Festina lente
(Affrettati lentamente)

Questo catalogo Damast nasce per accompagnarvi alla scoperta della **doccetteria** pensata per la sala mostra, un universo fatto di dettagli, proporzioni e armonie che trasformano un gesto quotidiano in un'esperienza sensoriale e di stile.
Ogni pagina racconta una storia: quella dei prodotti, ma anche quella delle persone che li hanno interpretati attraverso immagini, atmosfere e progetti. **Professionisti** con sguardi diversi, uniti dall'etica e dalla stessa passione per l'acqua, la luce e il design.
Insieme, abbiamo dato vita a un **percorso narrativo** che esalta la personalità di ogni collezione e ne svela l'anima, traducendo valori tecnici in emozione visiva e tangibile.
Damast vi invita così a entrare nel cuore del proprio lavoro, dove innovazione, estetica e funzionalità dialogano con l'identità di chi sceglie, ogni giorno, di fare della qualità un principio di vita.

Festina lente
(Haste slowly)

*This Damast catalogue has been created to guide you in the discovery of **shower solutions** designed for the showroom space, a universe made of details, proportions and harmonies that turn an everyday gesture into a sensory and stylistic experience.*
*Each page tells a story: the story of the products, but also that of the people who have interpreted them through images, atmospheres and projects. **Professionals** with different perspectives and ethics, united by the same passion for water, light and design.*
*Together, we have given life to a **narrative path** that enhances the personality of each collection and reveals its soul, transforming technical values into a visual and tangible emotion.*
Damast thus invites you to step into the heart of its work, where innovation, aesthetics and functionality enter into dialogue with the identity of those who choose, every day, to make quality a guiding principle in life.

Doccetteria.

RISPARMIO D'ACQUA | *WATER SAVING*

L'acqua è un bene prezioso. Le docce ed i soffioni che utilizzano la tecnologia Water-Saving preservano dagli sprechi d'acqua riducendo il consumo idrico fino al 40%.

Water is a precious commodity. Hand showers and shower heads that use Water-Saving technology avoid water waste by reducing water consumption by up to 40%.

ANTICALCARE | *EASY CLEAN*

La tecnologia Easy Clean permette di rimuovere rapidamente i residui e i depositi di calcare presenti nell'acqua dalle docce e dai soffioni grazie agli ugelli flessibili in silicone con un semplice strofinio del dito.

The Easy Clean technology allows you to swiftly remove debris and deposits of limescale from both showers and shower heads thanks to flexible anti-limescale silicone jets.

INIEZIONE DI ARIA | *AIR SYSTEM*

La tecnologia Air-System permette di realizzare un getto più frizzante mescolando aria ed acqua. Questa combinazione produce zampilli morbidi e leggeri, che ricordano l'effetto naturale della pioggia.

With the Air-System technology, the waterflow is aerated by combining air and water, benefiting the shower experience with soft and smooth waterflows, reminiscent of the natural rainfall.

CROMOTERAPIA | *COLORTHERAPY*

Luci LED RGB con effetto cromoterapia integrati negli ugelli del soffione e della doccia trasformano il getto d'acqua in un veicolo di luce e colore. I prodotti Damast non necessitano di un punto corrente poiché integrano una dinamo interna che si aziona con la forza dell'acqua.

RGB LED lights with a colortherapy effect is a series of integrated lighting within the shower nozzles, transforming the shower into a vehicle of light and color. The Damast colortherapy series does not require an electrical connection because the internal dynamo is activated by the shower waterflow.

INSTALLAZIONE SEMPLICE E RAPIDA | *EASY INSTALL*

È la soluzione per il montaggio dei complementi doccia senza l'utilizzo di attrezzi e particolari conoscenze tecniche grazie agli attacchi universali.

Quick and easy installation. Damast offers an easy solution for installation, without the use of tools and technical knowledge due to the universal attachments.

PORTATA | *FLOW RATE*

La portata dell'acqua è espressa in litri al minuto (l/m).

The water flow rate is expressed in litres per minute (l/m).

TIPOLOGIA DELLA COLONNA

Ci sono diverse soluzioni per l'allestimento della colonna. Nelle pagine seguenti del catalogo sono indicate le possibilità per ogni specifica colonna. Ogni soluzione ha un codice diverso che va indicato al momento dell'ordine.

ATTENZIONE

I prodotti Damast sono testati e garantiti per un corretto funzionamento con una pressione compresa tra 2,5 e 3,5 Bar.

COLUMN VERSIONS

There are several solutions for the installation of the column. In the following pages of the catalogue each specific column offers various options. Each solution has a different code which should be quoted when ordering.

ATTENTION

The Damast products are tested and guaranteed for correct operation with a pressure between 2.5 and 3.5 Bar.

NOTA

I miscelatori forniti con le composizioni C2, D ed E seguono lo stile della colonna

The mixers supplied with compositions C2, D and E follow the column style

COMPLETA IL TUO SET

Damast consiglia:
soluzione **A**: miscelatore esterno 3/4"M superiore,
soluzione **B**: miscelatore incasso una via,
soluzione **C**: miscelatore esterno attacco 1/2"M inferiore, oppure miscelatore incasso una via e una presa acqua.

H_2O: mandata dell'acqua

COMPLETE YOUR SHOWER SET

Damast *recommends:*
*solution **A**: 3/4" M upper plug external mixer,*
*solution **B**: concealed mixer one way,*
*solution **C**: external mixer 1/2" M lower plug,*
or one way concealed mixer and water plug.

H_2O: *water inlet*

Architetti e Stylist

COLE ARMALDI

IO ABITO QUI

EX SCENOGRAFA TEATRALE ATTIVA NELLE COMPAGNIE SPERIMENTALI DEGLI ANNI '60 E '70.

HA LAVORATO TRA DANZA CONTEMPORANEA E PERFORMANCE D'AVANGUARDIA, CREANDO MONDI VISIVI RADICALI.

OGGI PORTA NEL SUO QUOTIDIANO LA STESSA SENSIBILITÀ MATERICA, CROMATICA E NARRATIVA DEL SUO PASSATO ARTISTICO.

I LIVE HERE.

Former theatre scenographer active in the experimental companies of the 1960s and 1970s.

She worked between contemporary dance and avant-garde performance, creating radical visual worlds.

Today she brings into her daily life the same material, chromatic and narrative sensitivity of her artistic past..

Marco Pisati per Damast.

Architetto e designer

Uno spazio sacro, dove il concetto di pulizia del corpo è collegato a quello di purificazione dell'anima, come in fondo lo è in molte religioni; ad esempio in quella cristiana dove anticamente il battesimo avveniva per immersione totale oppure in quella musulmana dove il lavaggio di alcuni parti del corpo è necessario prima di poter pregare.

E così, in questo spazio moderno, ci si purifica, entrando inizialmente in un atrio, definito dal colore nero, dove lavare il corpo con getti a soffitto e laterali a cascata per poi accedere ad uno spazio bianco, candido e sacro dove rigenerare l'anima.

Lo spazio bianco è rialzato tramite un basamento e i tre oggetti che lo caratterizzano sono definiti da forme primarie ed assolute: un lavabo cilindrico, una vasca quadrata a filo basamento ed una colonna doccia cilindrica e minimalista.

Il contrasto bianco/nero è volutamente simbolico ed anche la luce che definisce lo spazio è modulata su questo concetto; la parte sacra bianca è illuminata da una grande vetrata quadrettata con luce diffusa ed eterea, mentre la parte di ingresso nera è caratterizzata da una luce zenitale e laterale violenta e terrena.

A sacred space, where the concept of cleansing the body is linked to that of purifying the soul, as it is, after all, in many religions; for example in Christianity, where in ancient times baptism took place by total immersion, or in Islam, where the washing of certain parts of the body is necessary before being able to pray.

And so, in this modern space, one is purified by first entering an atrium, defined by the colour black, where the body is washed with ceiling and side cascading jets and then gaining access to a white, pure and sacred space where the soul is regenerated.

The white space is raised by means of a platform and the three objects that characterize it are defined by primary and absolute forms: a cylindrical washbasin, a square bathtub flush with the platform and a cylindrical and minimalist shower column.

The white/black contrast is deliberately symbolic and so is the light that defines the space; the white sacred area is illuminated by a large gridded window with diffused and ethereal light, while the black entrance area is characterized by a violent and earthly zenithal and lateral light.

Alessandra Bertini per Damast.
Architetto e designer

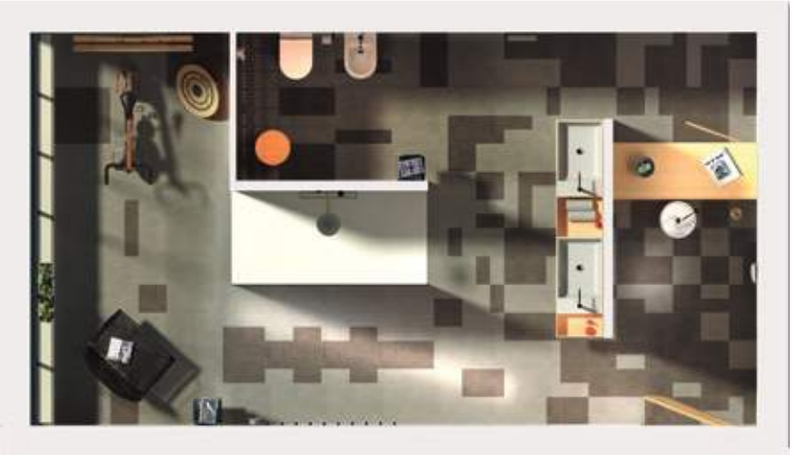

Mens sana in corpore sano.

Oggi il bagno rappresenta un vero lusso: piccolo o essenziale, resta uno dei pochi luoghi realmente intimi, uno spazio personale a cui si accede bussando, salvo nostra concessione. Ho immaginato questo ambiente come un luogo capace di celare passaggi e rivelare nicchie raccolte e isolate.

L'antibagno, pensato per ospiti e visite rapide, dialoga con il vano lavanderia che funge da filtro e amplificatore visivo; entrambi conducono al bagno principale, dove si apre la scena dell'ampio lavabo, con rubinetti alti da cui l'acqua scivola come piccole fontane domestiche.

Il volume centrale della doccia è il fulcro del progetto: privo di chiusure per garantire continuità spaziale e trasparenza percettiva. Sul retro, la zona sanitari è più raccolta e schermata da una parete in gelosie di terracotta che filtra la luce naturale creando un effetto morbido e controllato. Il percorso circumferenziale attorno alla doccia rivela un dettaglio grafico sul pavimento — reinterpretazione del gioco della campana — con funzione narrativa e di alleggerimento mentale.

In un tempo che richiede sempre più concentrazione e rielaborazione personale, questo ambiente è pensato come luogo di riflessione protetta: nei momenti concitati o di rilassamento, l'acqua diventa elemento rinvigorente e talvolta purificatore. A supporto di questa funzione, una nicchia attrezzata e volutamente nascosta ospita strumenti per l'attività fisica e una poltrona per lettura o pausa, configurando una piccola area benessere integrata.

La scelta materica richiama autenticità e continuità con le origini: terracotta, intonaci in cocciopesto, pavimenti in tonalità naturali, mentre il legno aggiunge calore e preziosità. Il pavimento, attraverso tagli modulari e due cromie, descrive percorsi veloci e lenti. Nella doccia, infine, la carta da parati a mille righe crea un movimento ipnotico, invitando la mente a perdersi, anche solo per un attimo.

Mens sana in corpore sano.

Today the bathroom represents a true luxury: small or essential, it remains one of the few truly intimate places, a personal space to which one accesses by knocking, unless we allow it. I imagined this environment as a place capable of hiding passages and revealing secluded and isolated niches.

The anteroom, designed for guests and quick visits, dialogues with the laundry area, which acts as a filter and visual amplifier; both lead to the main bathroom, where the scene of the large washbasin opens, with tall faucets from which water flows like small domestic fountains.

The central volume of the shower is the fulcrum of the project: without closures to guarantee spatial continuity and perceptual transparency. At the rear, the sanitary area is more enclosed and screened by a terracotta louvered wall that filters natural light, creating a soft and controlled effect. The circumferential path around the shower reveals a graphic detail on the floor—a reinterpretation of the bell game—with a narrative function and to lighten the mind.

In a time that requires increasingly more concentration and personal elaboration, this environment is conceived as a place of protected reflection: in hectic moments or times of relaxation, water becomes a reinvigorating and sometimes purifying element. Supporting this function, an equipped and deliberately hidden niche hosts tools for physical activity and an armchair for reading or pause, configuring a small integrated wellness area.

The choice of materials recalls authenticity and continuity with origins: terracotta, cocciopesto plaster, floors in natural shades, while wood adds warmth and preciousness. The floor, through modular cuts and two colors, describes fast and slow paths. In the shower, finally, the wallpaper with a thousand lines creates a hypnotic movement, inviting the mind to get lost, even if only for a moment.

Studio Lucchese per Damast.
Architetto e Designer

ARCHINATURE

Il bagno disegnato per Damast non è concepito come un ambiente reale o domestico in senso tradizionale, ma come **un luogo dell'acqua** ideale: un ambiente concettuale in cui funzione e immaginazione progettuale si fondono. Il bagno viene interpretato come archetipo, libero da vincoli dimensionali e normativi, pensato per esprimere in forma pura il rapporto tra **architettura, acqua e natura**. In questa dimensione ideale, le soluzioni Damast diventano elementi generativi dello spazio, capaci di definire un'esperienza immersiva che va oltre l'uso quotidiano e si avvicina a un **rituale contemporaneo di benessere**.

Il cuore del progetto è **l'acqua**, interpretata nelle sue diverse espressioni: dalla doccia centrale a pioggia, che scende come una cascata naturale, alla vasca avvolgente che invita a un rituale lento e contemplativo, ad una zona relax con getti massaggianti. Nella parte retrostante una zona doccia tradizionale e una zona lavabo completano il percorso sensoriale.

La biofilia guida l'intero concept progettuale. La presenza del verde è parte integrante dell'architettura: pareti vegetali, piante sospese e inserti naturali creano continuità visiva e percettiva, evocando paesaggi esterni e contribuendo a un'atmosfera di equilibrio e rigenerazione. La natura non è decorazione, ma **elemento strutturante dello spazio**.

I materiali e le superfici sono scelti per la loro essenzialità e per la capacità di dialogare con luce e acqua. Le tonalità neutre e legate alla pietra amplificano la percezione di purezza, mentre la luce naturale accompagna i volumi con discrezione, definendo uno spazio calmo, ordinato e immersivo.

Questo progetto rappresenta la nostra visione di bagno interpretato con i prodotti Damast: un'**architettura dell'acqua** in cui design, tecnologia e natura si integrano in modo armonico, trasformando il bagno ideale in un ambiente biofilico capace di **rigenerare corpo e mente**.

Archinature

*The bathroom designed for Damast is not conceived as a real or domestic environment in the traditional sense, but as **a place of ideal water**: a conceptual environment in which function and design imagination merge. The bathroom is interpreted as an archetype, free from dimensional and regulatory constraints, conceived to express in pure form the relationship between **architecture, water and nature**. In this ideal dimension, Damast solutions become generative elements of the space, able to define an immersive experience that goes beyond daily use and approaches a **contemporary wellness ritual**.*

*The heart of the project is **water**, interpreted in its different expressions: from the central rain shower, which falls like a natural waterfall, to the enveloping bathtub that invites a slow and contemplative ritual, to a relaxation area with massaging jets. In the rear part, a traditional shower area and a washbasin area complete the sensory path.*

*Biophilia guides the entire design concept. The presence of greenery is an integral part of the architecture: living walls, hanging plants, and natural inserts create visual and perceptual continuity, evoking external landscapes and contributing to an atmosphere of balance and regeneration. Nature is not decoration, but a **structuring element of the space**.*

Materials and surfaces are chosen for their essentiality and for their capacity to dialogue with light and water. Neutral and stone-related tones amplify the perception of purity, while natural light discreetly accompanies the volumes, defining a calm, orderly and immersive space.

*This project represents our vision of the bathroom interpreted with Damast products: **a water architecture** in which design, technology and nature integrate in a harmonious way, transforming the ideal bathroom into a biophilic environment able **to regenerate body and mind.***

MANUTENZIONE
MAINTENANCE

Damast raccomanda per la pulizia delle superfici cromate dei suoi prodotti l'utilizzo di un panno morbido e sapone neutro diluito in acqua tiepida. È assolutamente sconsigliato l'uso di detergenti contenenti acido corrosivo o additivi abrasivi.

Damast reccommends for the cleaning of the chrome-plated surfaces use a soft cloth, soap and warm water.
Never use cleaning agents that contain a corrosive acid or a abrasive additive.

MANUTENZIONE
MAINTENANCE

Damast raccomanda per la pulizia delle superfici cromate dei suoi prodotti l'utilizzo di un panno morbido e sapone neutro diluito in acqua tiepida. È assolutamente sconsigliato l'uso di detergenti contenenti acido corrosivo o additivi abrasivi.

Damast recommends cleaning chrome-plated surfaces with a soft cloth, soap and warm water. Avoid using cleaning agents that contain a corrosive acid or an abrasive additive.

RISPARMIO D'ACQUA | *WATER SAVING*

L'acqua è un bene prezioso. Le docce ed i soffioni che utilizzano la tecnologia Water-Saving preservano dagli sprechi d'acqua riducendo il consumo idrico fino al 40%.

Water is a precious commodity. Hand showers and shower heads that use Water-Saving technology avoid water waste by reducing water consumption by up to 40%.

Articolo		Nadal Q1	Nadal Q1
WS		Sì	NO
Pressione acqua (PSI) *(flusso L/min)*	0,1	7,55	8,99
	0,2	10,23	12,33
	0,3	11,51	14,75
	0,4	11,66	16,66

INIEZIONE DI ARIA | *AIR SYSTEM*

La tecnologia Air-System permette di realizzare un getto più frizzante mescolando aria ed acqua. Questa combinazione produce zampilli morbidi e leggeri, che ricordano l'effetto naturale della pioggia.

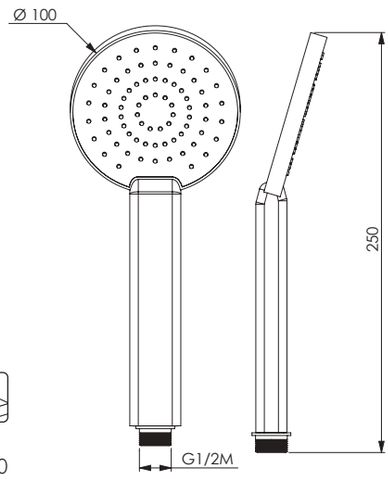

With the Air-System technology, the waterflow is aerated by combining air and water, benefiting the shower experience with soft and smooth waterflows, reminiscent of the natural rainfall.

MANUTENZIONE
MAINTENANCE

Damast raccomanda per la pulizia delle superfici cromate dei suoi prodotti l'utilizzo di un panno morbido e sapone neutro diluito in acqua tiepida. È assolutamente sconsigliato l'uso di detergenti contenenti acido corrosivo o additivi abrasivi.

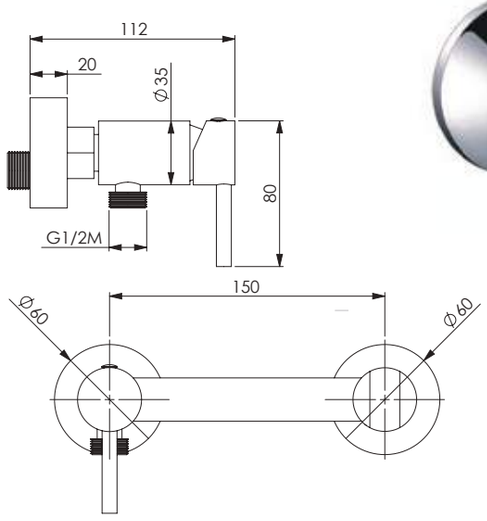

Damast recommends cleaning chrome-plated surfaces with a soft cloth, soap and warm water. Avoid using cleaning agents that contain a corrosive acid or an abrasive additive.

ANNIVERSARIO 25 ANNI DI DAMAST AL CERSAIE

Al Cersaie Damast racconta 25 anni di storia, ricerca e visione. Un percorso che ha trasformato la doccia da semplice gesto quotidiano in un'autentica esperienza di benessere, dando vita a una nuova visione del vivere contemporaneo.

Lo stand pensato come una vera e propria celebrazione interpreta i valori e i traguardi dell'azienda attraverso un dialogo con il mondo del design e dell'innovazione, grazie alla collaborazione con realtà d'eccellenza che condividono la stessa visione.

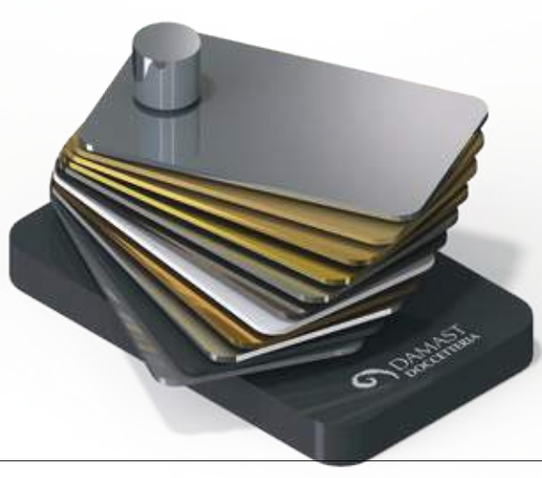

Damast è da sempre sinonimo di eleganza e stile. La cura di ogni dettaglio, dalla fase di progettazione al design del packaging, garantisce prodotti in cui l'attenzione all'aspetto estetico si unisce alla funzionalità e all'**ecosostenibilità**.
Il punto vendita ha a disposizione espositori modulari a parete e corner, oltre al kit finiture.
Infine, gli Expo nei punti vendita creano un'esperienza immersiva, consentendo di toccare con mano la **qualità delle soluzioni** proposte.
Un mix efficace per consolidare la presenza sul mercato.

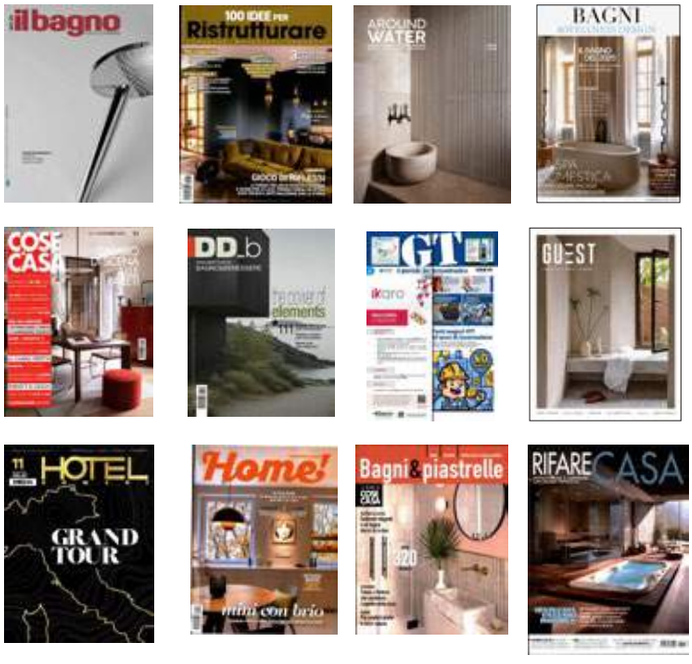

VISIBILITÀ

La visibilità di Damast è frutto di una strategia multicanale che unisce **TV, stampa, digital e punti vendita**. Gli spot televisivi garantiscono ampia diffusione e rafforzano il brand nel settore dell'arredo bagno. Le **testate specializzate** offrono autorevolezza, raggiungendo un pubblico mirato di professionisti e appassionati di design. I **social media** amplificano l'engagement, permettendo un dialogo diretto con i clienti e mostrando novità di prodotto.

DESIGN & CONTRACT area cer magazine IFDM EDILIZIA news MATRIX 4 DESIGN

FORMAZIONE

Abbiamo celebrato il **viaggio** dei primi 25 anni di Damast con una giornata di formazione speciale.
Immersi nello scenario unico del **Lago Maggiore**, attraversando le Centovalli e la Valle Vigezzo, lungo un itinerario ad anello partendo da Arona, passando per la perla di Stresa, le Isole Borromee e i Castelli di Cannero Riviera, fino ad Ascona e Locarno in Svizzera.
Un itinerario tra luoghi suggestivi, fatto di condivisione, coesione ed emozioni autentiche. Un modo per guardare al futuro di Damast e alle **prossime mete del nostro viaggio**.

MAI PIÙ – esercizi di resistenza al dolore

Teatro in fabbrica. In occasione della Giornata Internazionale **contro la violenza sulle donne**, Damast e il Comune di Invorio hanno promosso nella sede aziendale questa iniziativa culturale e sociale.
Una lettura **teatrale** interpretata dall'attrice Elena Ferrari, fondatrice della compagnia novarese Cabiria Teatro, ha dato vita a un momento intenso, condiviso profondamente da tutte le persone presenti trasformando così gli spazi aziendali in un luogo di riflessione collettiva.

PORTATA DELL'ACQUA
Damast da sempre attenta all'ambiente, con un'icona indica il consumo dell'acqua al minuto sia delle doccette che dei soffioni ad una pressione di 3 Bar.
In presenza di un regolatore di flusso la portata massima sarà limitata alla portata indicata dal regolatore stesso, nel rispetto del risparmio idrico. Le icone con indicazione 0 l/m sono attualmente in fase di test di portata.

FLOW RATE
Damast has always been sensitive towards the environment. As of 2024, Damast wants to express the water consumption of the hand showers and shower heads in litres per minute at a water pressure of 3 Bar.
In the presence of a flow regulator, the maximum flow rate will be limited to the regulator, in compliance with the water-saving parameters. The icons indicating 0 l/m are currently undergoing a waterflow test.

SYSTEM CERTIFICATION
ISO 9001
SGS

DAMAST srl
Azienda certificata
ISO 9001:2015
Certificazione ottenuta 2020
e valido fino al 2026

CARATTERISTICHE DEL PRODOTTO

La descrizione e le caratteristiche tecniche del prodotto non sono impegnative e possono variare senza preavviso, sia nella linea, sia nelle parti metalliche, grazie alla continua ricerca e sviluppo prodotto, Damast si riserva quindi di apportare le ritenute modifiche dove e quando lo reputi opportuno. Le immagini contenute nei cataloghi hanno lo scopo di dimostrare e rappresentare i singoli articoli e non costituiscono obbligo di fedele riproduzione; le dimensioni, i pesi e le misure ivi indicati non sono vincolanti.
Le tonalità dei colori possono variare lievemente da una fornitura all'altra, per cui non si accettano reclami in merito.

ACCETTAZIONE ORDINI

Gli ordini, che saranno soggetti a specifica approvazione DAMAST, rimangono validi anche trascorso il termine di consegna concordato ed in ogni caso fino a quando non venga comunicato, da parte del cliente, a mezzo raccomandata, espresso annullamento.

TERMINI DI CONSEGNA

I termini di consegna eventualmente indicati sono sempre forniti in via indicativa e non vincolante. Non verranno riconosciuti indennizzi o risarcimenti per eventuali ritardi nelle consegna stessa.

SPEDIZIONI

Le quantità devono essere verificate all'atto del ricevimento ed eventuali discordanze vanno evidenziate nel documento di trasporto mediante accettazione "con riserva". La merce viaggia a rischio e pericolo del committente, anche se sia stata assunta l'obbligazione, complementare al contratto di vendita, di resa franco destino. Damast non risponde di eventuali danni, ritardi od ammanchi subiti durante il trasporto.

RECLAMI

Non si accettano reclami al trascorrere degli otto giorni dal ricevimento merci.

PAGAMENTI

L'eventuale ritardo del pagamento comporterà l'addebito di interessi moratori ex lege previsti.
Damast si riserva la facoltà di sospendere eventuali ordini in corso, in presenza di pagamenti irregolari. Le contestazioni di qualsiasi valore o entità non danno diritto alla sospensione dei pagamenti.

RESI

Non si accettano resi se non espressamente autorizzati dall'azienda ed accompagnati dal modulo compilato.

GARANZIA

Dove non diversamente specificato la garanzia fornita da Damast è di:
• 2 anni per difetti di fabbricazione verificati su materiale cromato;
• 1 anno per difetti di fabbricazione verificati su materiale in altre finiture;
• 1 anno per difetti di fabbricazione verificati su qualsiasi componente elettrico od elettronico.
Il cliente, per poter far valere la garanzia deve necessariamente fornire i riferimenti della fattura di vendita relativa ai prodotti che presentano i difetti contestati. Damast non fornisce garanzie circa l'impiego errato, o inappropriato, dei propri prodotti. Qualora il materiale risultasse difettoso per vizi di fabbricazione, verificati a seguito di perizia, DAMAST si riserva di sostituirlo o accreditarne il valore, senza che la propria responsabilità si possa estendere in nessun caso ad altri oneri.

CONTROVERSIE LEGALI

Foro esclusivo competente per ogni controversia legale è il Foro di Novara. Legge applicabile quella italiana.

PRODUCT CHARACTERISTICS

All technical data and descriptions could be changed without prior notice. DAMAST, through continuous research and product development, is free to alter shape and parts of our products, if necessary. The images in catalogues and brochures are purely for illustrative purposes and may not accurately represent the final product (dimension, weights and other details are subject to change). The tonality of colours may be slightly different between deliveries, and consequently DAMAST does not accept complaints concerning this issue.

ORDERS ACCEPTANCE

Orders are subject to Damast approval and will remain valid even after the agreed delivery date and/or until otherwise notified by the client through a registered letter service.

DELIVERY TERMS

The delivery terms are always given as information and they have to be considered as not binding. No refund is therefore due for possible delivery delays.

SHIPMENTS

The quantities must be verified at the time of delivery and any discrepancies must be highlighted in the transport document by acceptance "with reserve". The goods travel at the client's own risk, even if delivery is free of charge. Damast is not responsible for any damages or delays or losses incurred during transport and any claims need to be made to the forwarding company.

CLAIMS

No claims will be accepted after eight days from receipt of the goods.

PAYMENTS

Payment delays will result in an interest fee at the current rate. Damast reserves the right to delete any order if payments are overdue. Disputes or complaint will not justify in any way a right to suspend payments..

RETURNS

Returns are not accepted unless expressly authorized by the company and accompanied by the completed form.

GUARANTEE

Unless otherwise specified, the guarantee provided by Damast is:
• 2 years for verified manufacturing defects on chromed material;
• 1 year for verified manufacturing defects on material in other finishes;
• 1 year for verified manufacturing defects on any electrical or electronic component.
In order to be able to enforce the guarantee, it is necessary that the customer provides the references of the sales invoice relating to the products which present the disputed defects. Damast does not provide a guarantee covering the incorrect or the inappropriate use of its products. If the material should be defective owing to manufacturing faults, Damast reserves the right to replace the material or to credit the value to the customer. However, under no circumstances does the company's liability extend to the payment of direct or indirect additional charges.

LEGAL DISPUTES

The law applicable to any agreement and for any dispute in connection to the agreement between Damast and the Customer is the Italian law. Any dispute shall be finally settled in accordance with the rules of conciliation and arbitration of the Court of Novara or nearest available Court in Italy.

CONDIZIONI DI VENDITA

I prezzi riportati nel presente listino sono validi dal 01 Marzo 2026 e sono da intendersi IVA di legge e trasporto esclusi. Tutti i prezzi indicati sono riferiti al singolo prodotto.

Gli ordini dovranno essere di importo pari o superiore a € 100,00.

Contributo spese di trasporto in Italia
Le spese di trasporto sono così regolamentate:

Italia penisola (escluso regione Calabria)

- Contributo di € 12,00 per ordini fino a € 200,00
